3. The present Engineering Course (of six months) which same officers are now undergoing commenced on the 16th Oct. 1916 and will end on the 15th April 1917. Vide G.O. No. G. 2697-2704 / Jm 317-15-16 & 25-8-1916.

4. In connection with the question as to how the break in Mr. Rudrappa's Engineering Course can be made up it has been ordered that his Course of training should be completed to make up the full period of 6 months.

5. Instead of Continuing the present Subt in the Chamarajendra Technical Institute (for a couple of months) to allow Mr. Rudrappa to finish his Course, it would be more advantageous to arrange for the training of the above said 9 officers in Elementary Engineering Soon after the present Course is over. It may be here noted that the chief engineer has stated that 6 to 10 officers could be trained at a time.

6. Survey training may be arranged for after the termination of the above course.

I understand that the special training period in the Engineering School at Mysore of the 1st batch of the Assistant Commissioners is nearly completed. Although it was once thought that an Examination of such officers was not necessary, on a further consideration it would be desirable to have a test examination in the subjects studied before the candidates leave the Institution and a certificate should be granted in token of their having passed in their Examination.

I therefore request that you will kindly ask the Head Master, Engineering School at Mysore to hold an Examination and communicate the results for the information of Government.

To avoid delay I am sending a copy of this letter to the Head Master for necessary action.
